

nuclear outer membrane–endoplasmic reticulum membrane network

endomembrane system

intrinsic component of endoplasmic reticulum membrane

endoplasmic reticulum membrane

endoplasmic reticulum subcompartment

endoplasmic reticulum part

integral component of endoplasmic reticulum membrane

endoplasmic reticulum

intracellular organelle part

membrane–enclosed lumen

organelle lumen

organellar small ribosomal subunit

mitochondrial matrix

intracellular organelle lumen

mitochondrial small ribosomal subunit

cell leading edge

mitochondrial part

small ribosomal subunit

mitochondrion

organelle membrane

mitochondrial envelope

organelle envelope

envelope

mitochondrial membrane

supramolecular fiber

vesicle membrane

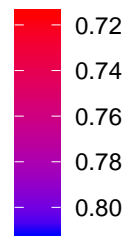

supramolecular polymer

supramolecular complex

polymeric cytoskeletal fiber

cilium

p.adjust

size
