

transferase complex, transferring phosphorus-containing groups

nuclear transcription factor complex
chromosome
condensed chromosome
nuclear chromatin
transcription factor complex
chromosomal part
nuclear chromosome
nuclear chromosome part

p.adjust

0.9205841

size

phagophore assembly site

autophagosome

vacuole

receptor complex
focal adhesion
cell-substrate adherens junction
cell junction
apical plasma membrane
apical part of cell
subapical complex
postsynaptic specialization
postsynapse
SNARE complex
transporter complex
transmembrane transporter complex
membrane protein complex
ion channel complex
voltage-gated potassium channel complex
cation channel complex
potassium channel complex
