

phosphatase binding

protein phosphatase binding

enzyme activator activity

nucleoside-triphosphatase regulator activity

GTPase regulator activity

GTPase activator activity

molecular function regulator

guanyl-nucleotide exchange factor activity

Ras GTPase binding

Rho GTPase binding

enzyme binding

small GTPase binding

GTPase binding

Ras guanyl-nucleotide exchange factor activity

Rho guanyl-nucleotide exchange factor activity

potassium channel activity

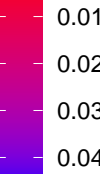

voltage-gated cation channel activity

DNA binding transcription factor activity

nucleic acid binding

DNA binding

p.adjust

size
