

dephosphorylation

RNA modification

negative regulation of response to stimulus

negative regulation of ERBB signaling pathway

negative regulation of intracellular signal transduction

negative regulation with signal lands difficient all growth factor receptor signaling pathway

cellular response to oxidative stress

negative regulation of signaling

negative regulation of cell communication

regulation of signaling

MAPK cascade

polysaccharide metabolic processsignal transduction by protein phosphorylation

regulation of cell communication

cellular polysaccharide metabolic process

nervous system process

p.adjust

size

0.9966612

behavioral response to ethanol

carbohydrate biosynthetic process

response to antibiotic

response to oxygen-containing compound

system process

oligosaccharide biosynthetic process

response to toxic substance

spermatid development

spermatid differentiation

medium-term memory regulation of neuronal synaptic plasticity

regulation of synaptic plasticity
