

isomerase activity

SNAP receptor activity

transferase activity, transferring acyl groups other than amino-acyl groups

neuropeptide hormone activity

serine-type endopeptidase activity

voltage-gated cation channel activity

inorganic anion transmembrane transporter activity

protein kinase regulator activity

SNARE binding

hormone activity

hydrolase activity, acting on carbon-nitrogen (but not peptide) bonds

neurotransmitter receptor activity

hydrolase activity, acting on carbon-nitrogen (but not peptide) bonds, in cyclic amidines

magnesium ion binding

voltage-gated potassium channel activity

glycosaminoglycan binding

transferase activity, transferring acyl groups

peptidyl-prolyl cis-trans isomerase activity

extracellular matrix structural constituent

scavenger receptor activity

identical protein binding

cargo receptor activity

deaminase activity

palmitoyltransferase activity

kinase regulator activity

protein homodimerization activity

protein dimerization activity

cis-trans isomerase activity

inorganic anion exchanger activity

catalytic activity, acting on a glycoprotein
