

regulation of peptidase activity

Rho protein signal transduction

positive regulation of Rho protein signal transduction

carbohydrate catabolic process

regulation of cell size

cellular carbohydrate catabolic process

negative regulation of cell morphogenesis involved in differentiation

negative regulation of axonogenesis telencephalon development

axon guidance forebrain development

taxis

size

20

0.9619303

p.adjust

neuron projection guidance

brain development locomotion

chemotaxis

detection of chemical stimulus involved in sensory perception of smell

positive regulation of angiogenesis

angiogenesis-

regulation of anatomical structure morphogenesis

vasculature development

cardiovascular system development

regulation of pH

regulation of signal transduction

blood vessel morphogenesis

blood vessel development

positive regulation of apoptotic process

positive regulation of cell death

positive regulation of programmed cell death
