ionotropic glutamate receptor activity

protein dimerization activity extracellularly glutamate-gated ion channel activity

substrate-specific channel activity

ligand-gated channel activity

inorganic molecular entity transmembrane transporter activity potassium channel activity ion channel activity

extracellular ligand-gated ion channel activity molecular transducer activity identical protein binding

protein transporter activity

signaling receptor activity cation transmembrane transporter activity

transporter activity cation channel activity

excitatory extracellular ligand-gated ion channel activity

potassium ion transmembrane transporter activity channel activity

ligand-gated ion channel activity

transmembrane signaling receptor activity

glutamate receptor activity

ion transmembrane transporter activity

structural constituent of ribosome
