

positive regulation of humoral immune response

positive regulation of immune effector process

regulation of response to biotic stimulus

positive regulation of defense response

peptide metabolic process

positive regulation of immune response

regulation of humoral immune response

antimicrobial humoral immune response mediated by antimicrobial peptide regulation of antimicrobial peptide biosynthetic process

regulation of immune effector process

positive regulation of multi-organism process

positive regulation of immune system process

positive regulation of production of molecular mediator of immune response antimicrobial peptide biosynthetic process

defense response to virus

regulation of antimicrobial humoral response cellular amide metabolic process

antibacterial humoral response

antimicrobial peptide production

production of molecular mediator of immune response

regulation of production of molecular mediator of immune response

import into cell

positive regulation of antimicrobial peptide production

regulation of antimicrobial peptide production

positive regulation of response to external stimulus

positive regulation of cellular amide metabolic process

positive regulation of antimicrobial humoral response

response to virus

regulation of defense response to bacterium

positive regulation of response to biotic stimulus
