

## phosphoric diester hydrolase activity endopeptidase inhibitor activity

inorganic cation transmembrane transporter activity

serine-type endopeptidase inhibitor activity

cation transmembrane transporter activity

endopeptidase regulator activity

neurotransmitter receptor activity involved in regulation of postsynaptic membrane potential

acetylcholine-gated cation-selective channel activity
transmitter-gated ion channel activity involved in regulation of postsynaptic membrane potential
metalloexopeptidase activity

ion gated channel activity

cation channel activity

gated channel activity

postsynaptic neurotransmitter receptor activity

peptidase activity

serine hydrolase activity

neurotransmitter receptor activity

molecular transducer activity

peptidase activity, acting on L-amino acid peptides
signaling receptor activity

signal transducer activity

serine-type peptidase activity

endopeptidase activity

serine-type endopeptidase activity

ammonium ion binding

protein dimerization activity

methyltransferase activity

S-adenosylmethionine-dependent methyltransferase activity transferase activity, transferring pentosyl groups
