

antioxidant activity

peroxidase activity

ubiquitin-protein transferase activity

oxidoreductase activity, acting on peroxide as acceptorcatalytic activity, acting on a protein

ubiquitin-like protein transferase activity

solute:cation antiporter activity

exopeptidase activity

ion antiporter activity

antiporter activity

aminopeptidase activity

2

size

anion transmembrane transporter activity

chloride transmembrane transporter activity

inorganic anion transmembrane transporter activity

metalloexopeptidase activity

0.7685259

p.adjust

kinase regulator activity

clathrin binding

ion transmembrane transporter activity

cytokine receptor binding

potassium ion transmembrane transporter activity

potassium channel activity

structural constituent of ribosome

microtubule motor activity

catalytic activity, acting on RNA protein-cysteine S-palmitoyltransferase activity

unfolded protein binding

S-acyltransferase activity

catalytic activity, acting on a tRNA

protein-cysteine S-acyltransferase activity

ligase activity
