

regulation of sodium ion transmembrane transport

regulation of smooth muscle contraction

regulation of sodium ion transport

regulation of sodium ion transmembrane transporter activity positive regulation of smooth muscle contraction

positive regulation of muscle contraction

norepinephrine transport

response to steroid hormone

regulation of reproductive process

regulation of multi-organism process

size

receptor recycling

vesicle-mediated transport to the plasma membrane

establishment of protein localization to plasma membrane interferon-gamma production

positive regulation of interferon—gamma production establishment of protein localization to membrane

protein localization to membrane positive regulation of immune effector process

regulation of interferon-gamma production

protein localization to cell periphery positive regulation of lymphocyte mediated immunity

protein localization to pla**ត្តកានាក្រទាស់ទៅនាង**tion of production of molecular mediator ef imanual response production

positive regulation of cytokine production

proteasomal protein catabolic process

proteasome mediated ubiquitin dependent protein catabolic process

positive regulation of protein catabolic process

osteoclast differentiation

myeloid leukocyte differentiation
