

positive regulation of nucleobase–containing compound metabolic process positive regulation of gene expression

positive regulation of RNA metabolic process

positive regulation of cellular biosynthetic process

positive regulation of nucleic acid-templated transcription

positive regulation of biosynthetic process

nucleic acid metabolic process

positive regulation of macromolecule biosynthetic process

positive regulation of RNA biosynthetic process

RNA metabolic process gene expression

positive regulation of macromolecule metabolic process regulation of macromolecule metabolic process

RNA biosynthetic process

regulation of gene expression positive regulation of nitrogen compound metabolic process

nucleobase-containing compound metabolic process

positive regulation of transcription, DNA-templated

small GTPase mediated signal transduction

nucleic acid-templated transcription

transcription, DNA-templated

heterocycle metabolic process

regulation of gene expression, epigenetic
