

regulation of neurogenesis

regulation of neuron projection development regulation of multicellular organismal development

intracellular signal transduction

regulation of cell morphogenesis involved in differentiation

positive regulation of cell communication

positive regulation of cellular process

regulation of cell morphogenesis

system development regulation of plasma membrane bounded cell projection organization

regulation of signal transduction

positive regulation of signaling

regulation of cell projection organization

regulation of neuron differentiation imaginal disc development

positive regulation of signal transduction

regulation of apoptotic process

regulation of cell death macromolecule localization

positive regulation of response to stimulæpoptotic process cellular response to DNA damage stimulus

mitotic cell cycle

protein localization

positive regulation of intracellular signal regulation programmed cell death

protein-containing complex localization

exocytosis
