

palmitoyltransferase activity protein-cysteine S-acyltransferase activity

ion channel regulator activity transferase activity, transferring acyl groups other than amino-acyl groups protein-cysteine S-palmitoyltransferase activity

ligase activity, forming carbon-nitrogen bonds

GTPase activator activity

transferase activity, transferring acyl groups

S-acyltransferase activity

GTPase regulator activity

transferase activity

p.adjust

nucleoside-triphosphatase regulator activity

carboxylic acid transmembrane transporter activity

enzyme activator activity

monocarboxylic acid transmembrane transporter activity

lipase activity

phospholipid binding

protein binding, bridging

organic acid transmembrane transporter activity

ligand-gated channel activity

clathrin binding

lipid binding

signaling receptor activity

molecular adaptor activity

ligand-gated ion channel activity

acetylgalactosaminyltransferase activity

molecular transducer activity

syntaxin binding

transmembrane signaling receptor activity

G protein-coupled amine receptor activity
