

neurogenesis cell differentiation cell development

nervous system development

positive regulation of biological process

cellular developmental process

neuron differentiation

regulation of cell communication

anatomical structure morphogenesis generation of neurons

regulation of signaling

regulation of response to stimulus

animal organ development

system development

cell morphogenesis

tube development regulation of small GTPase mediated signal transduction post-embryonic animal organ development

cell projection organization

tissue development

epithelial tube morphogenesis

animal organ morphogenesis

tissue morphogenesis

morphogenesis of an epithelium

epithelium development

Rho protein signal transduction

regulation of Rho protein signal transduction

leg disc development

leg disc morphogenesis

imaginal disc-derived leg morphogenesis
