

supramolecular fiber organization

morphogenesis of embryonic epithelium actin cytoskeleton organization

system development

actin filament-based process

chitin metabolic process

anatomical structure morphogenesis

tissue development

tissue morphogenesis

imaginal disc morphogenesis

drug metabolic process

morphogenesis of an epithelium

post-embryonic animal organ development

epithelium development

post-embryonic animal organ morphogenesis

regulation of cellular macromolecule biosynthetic process

amino sugar metabolic process

aminoglycan metabolic process

imaginal disc-derived wing morphogenesis

post-embryonic appendage morphogenesis

regulation of RNA metabolic process

regulation of nucleobase-containing compound metabolic process

glucosamine-containing compound metabolic process

transcription, DNA-templated

regulation of RNA biosynthetic process

nucleic acid-templated transcription

regulation of nucleic acid-templated transcription regulation of transcription, DNA-templated

RNA biosynthetic process
