

vacuole early endosome membrane

lytic vacuole

endosomal part cytoplasmic microtubule brush border

endosome lumen lysosome

early endosome

membrane coat apical plasma membrane

cluster of actin-based cell projections

plasma membrane region

apical part of cell trans-Golgi network membrane

membrane microdomain

membrane raft

membrane region

nucleolus

chromosomal part

nuclear chromosome

proton-transporting two-sector ATPase complex

proton-transporting V-type ATPase complex

voltage-gated potassium channel complex

ion channel complex

axon

cornified envelope

main axon

cation channel complex

potassium channel complex

size

5 10
