

## DNA-dependent ATPase activity

## catalytic activity, acting on DNA ATPase activity, coupled

ATPase activity

transferase activity, transferring pentosyl groups primary active transmembrane transporter activity

sodium-independent organic anion transmembrane transporter activity

P-P-bond-hydrolysis-driven transmembrane transporter activity

ATPase activity, coupled to transmembrane movement of substances

inorganic anion transmembrane transporter activity

ATPase activity, coupled to movement of substances

inorganic anion exchanger activity

transmembrane transporter activity

inorganic cation transmembrane transporteria-toattaining complex scaffold activity

ion transmembrane transporter activity

p.adjust

size

0.7722328

cation transmembrane transporter activity

inorganic molecular entity transmembrane transporter activity

iron ion binding

voltage-gated channel activity

ligand-gated cation channel activity voltage-gated cation channel activity

voltage-gated ion channel activity

tetrapyrrole binding

heme binding

glutamate receptor activity

neuropeptide receptor binding

carbohydrate binding

hydrolase activity, acting on carbon-nitrogen (but not peptide) bonds, in linear amides

acetylglucosaminyltransferase activity
