

## nucleoside triphosphate metabolic process

ribose phosphate biosynthetic process

positive regulation of phosphate metabolic process

positive regulation of phosphorus metabolic process

ribonucleotide biosynthetic process

purine nucleoside triphosphate metabolic process

positive regulation of cellular biosynthetic process

purine ribonucleotide metabolic process

ribonucleoside triphosphate metabolic process
purine-containing compound biosynthetic process

regulation of small molecule metabolic process

mitochondrion organization

nucleoside monophosphate metabolic process

positive regulation of biosynthetic process

nucleoside phosphate biosynthetic process

nucleotide biosynthetic process

ribonucleoside monophosphate metabolic process

purine ribonucleoside triphosphate metabolic process

purine nucleotide metabolic process

purine nucleoside monophosphate metabolic process

ribonucleotide metabolic process

purine nucleotide biosynthetic process
purine-containing compound metabolic process

metal ion homeostasis

ribose phosphate metabolic process

cellular metal ion homeostasis mitochondrial respiratory chain complex assembly

purine ribonucleoside monophosphate metabolic process positive regulation of nucleobase-containing compound metabolic process

purine ribonucleotide biosynthetic process
