

proteoglycan biosynthetic process proteoglycan metabolic process

cellular amino acid catabolic process

aminoglycan biosynthetic process

heparan sulfate proteoglycan metabolic process

polysaccharide biosynthetic process glycoprotein metabolic process

N-glycan processing

heparan sulfate proteoglycan biosynthetic process

cellular polysaccharide biosynthetic process

oviposition
regulation of oviposition

regulation of post-mating oviposition

post-mating oviposition

reproductive behavior

reproductive behavior

triglyceride homeostasis

amino sugar metabolic process
